

# Total Solution For Lyobeads

## CDMO For Lyobeads

Lyobead supports Customizable lyophilized beads solution from R&D, pilot and production scale.

### Optimize formulation

- Optimize formulation on excipients
- Explore the ideal freeze-drying program
- Customized services

### Precise dispensing system

- High precision control system
- Fast frozen to keep activity
- Dispensing range from 2-50ul with low CV needs

### Lyophilization

- Melting point & Eutectic point
- Optimize freeze-drying program
- Scan the temperature differences

### Standardization

- Professional production team
- Customized manufacturing facility
- QC system

### QC

- Appearance inspection
- Moisture content test
- Reconstitution test
- PCR test
- etc.

### Package in low humidity

- Package in low RH
- PCR tubes, vials, centrifuge tube, microfluid chip, other customized package
- Vacuum packaging, store in low RH

## COMPANY PROFILE

Suzhou Lyobead Tech Co., Ltd. (Lyobead) is a company specializing in providing solutions for freeze-dried beads of diagnostic reagents; Customized lyobeads service can be provided for customers from R&D, pilot scale to production scale. At the same time, we also provide customers with standard lyobeads.

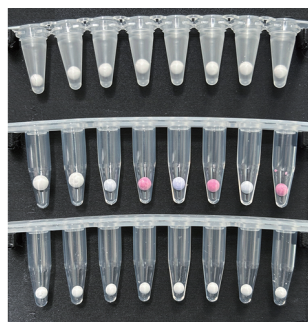

## PRODUCTS SUPPLIED

2×Lyo-ready qPCR Mix

2×Lyo-ready qPCR Buffer

2×Lyo-ready RT-qPCR Mix

2×Lyo-ready RT-qPCR Buffer

## CDMO OR OEM SERVICE Molecular Diagnostics Kits(eg: Real-time PCR, RPA, LAMP)

Genetic Diseases And Genetic Predispositions

Pathogen Detection & Genotyping

## NUCLEIC ACIDS PURIFICATION

DNA Preparation

RNA Preparation
